

Happily Ever After

LYRICS BY KRISTIN FESSLER

Verse 1

The world slowed down
When we locked eyes
Playing it cool
But I felt butterflies

A crowded room
But it was just you and I
So much to say
But I got so tongue tied

Chorus

You make my life
You make my life more colorful
You make my dreams
You make my dreams so beautiful
Filling my days with love and laughter
Cause you're my happily ever after

Verse 2

And just like that
I was pulled towards you
Hypnotic charm
Nothing I could do

I knew right then
We were meant to be
Sudden connection
I fell instantly

Bridge

Our love story is a great one
It reads like a fairytale
But unlike a Hollywood movie
It led to something real
Oh, our love story is a great one
It reads like a fairytale
But unlike a Hollywood movie
It led to something real

Final Chorus

You make my life
You make my life more colorful
You make my dreams
You make my dreams so beautiful
You make my life
You make my life so colorful

Outro

Before you there were only disasters
But now I finally got my happily ever after

A song about finally finding the one after all the failed relationships —
when the heartbreaks and wrong turns finally lead you to the love
that makes it all worthwhile.
